Dedicatory Instruments

Guidelines for Solar Energy Devices

WHEREAS, Foxwood Glen Homeowners Association, Inc. (the "Association") is an addition in Collin County, Texas. The final plats were recorded in the Real Property Records of Collin County, Texas as; Document No. 920023822 PL 25.00 Recorded on April 16, 1992. Lots in Foxwood Glen are subject to the Declaration of Covenants, Conditions & Restrictions for Foxwood Glen Homeowners Association, recorded on August 10, 1990 as Document Number 333082342075 in the Real Property Records, Collin County, Texas. Additional filings were recorded on November 19, 1993 as Document Number 930101093, 95-0016439, 0037066, 00226371 in the Real Property Records, Collin County, Texas. The Association wishes to adopt reasonable guidelines for Solar Energy Devices; and

WHEREAS, the Board wishes to update and adopt these reasonable guidelines to be in compliance with Section 209.0062 of the Texas Property Code; and

WHEREAS, the Board intends to file these guidelines in the real property records of each county in which the subdivision is located, in compliance with Section 209.0062 of the Texas Property Code; and

NOW, THEREFORE, IT IS RESOLVED that the attached guidelines for solar energy devices have been established by the Board and are to be recorded with the Real Property Records.

Foxwood Glen Residential Association, Inc
3102 Oak Lawn Ave Suite 202
Dallas, TX 75219

GUIDELINES FOR SOLAR ENERGY DEVICES

STATE OF TEXAS

§

KNOW ALL PERSONS BY THESE PRESENTS:

COUNTY OF _____

§

§

WHEREAS the *Foxwood Glen Residential Association, Inc* ("Association") is charged with administering and enforcing those certain covenants, conditions and restrictions contained in the recorded Declarations for the various sections of the community (referred to collectively as "Declarations"); and

WHEREAS chapter 202 of the Texas Property Code was amended effective June 17, 2011, to add Section 202.010 ("Section 202.010") thereto dealing with the regulation of solar energy devices; and

WHEREAS, the Board of Directors ("Board") of the Association has determined that in connection with maintaining the aesthetics and architectural harmony of the community, and to provide clear and definitive guidance regarding solar energy devices therein, it is appropriate for the Association to adopt guidelines regarding solar energy devices within the community.

NOW, THEREFORE, the Board has duly adopted the following *Guidelines for Solar Energy Devices* within the community.

1. These guidelines apply to solar energy devices ("Devices") as defined in Section 171.107(a) of the Texas Tax Code. A solar energy device means a system or series of mechanisms designed primarily to provide heating or cooling or to produce electrical or mechanical power by collecting and transferring solar-generated energy. The term includes a mechanical or chemical device that has the ability to store solar-generated energy for use in heating or cooling or in the production of power.
2. Such Devices may be installed with advance approval of the Architectural Control Committee ("ACC") subject to these guidelines.
3. Any such Device must be installed on land or structures owned by the property owner. No portion of the Device may encroach on adjacent properties or common areas.
4. Such Devices may only be installed in the following locations:
 - a. on the roof of the main residential dwelling; or
 - b. on the roof of any other approved structure; or
 - c. within a fenced yard or patio.
5. For Devices mounted on a roof, the Device must:

- a. have no portion of the Device higher than the roof section to which it is attached; and
 - b. have no portion of the Device extend beyond the perimeter boundary of the roof section to which it is attached; and
 - c. conform to the slope of the roof; and
 - d. be aligned so that the top edge of the Device is parallel to the roof ridge line for the roof section to which it is attached; and
 - e. have a frame, brackets, and visible piping or wiring that is a color that matches the roof shingles or a silver, bronze or black tone commonly available in the marketplace; and
 - f. be located in a position on the roof which is least visible from any street or common area which does not reduce estimated annual energy production more than ten percent (10%), as determined by a publically available modeling tool provided by the National Renewable Energy Laboratory (www.nrel.gov) or equivalent entity over alternative roof locations.
6. For Devices located in a fenced yard or patio, no portion of the Device may extend above the fence. If the fence is not a solid fence which blocks view of the Device, the ACC may require the Device be placed in a location behind a structure or otherwise require visual screening. The ACC may consider installation of Devices on properties without a fenced yard if there is adequate screening from public view from any street or common area.
7. All Devices must be installed in compliance with manufacturer's instruction and in a manner which does not void material warranties. Licensed craftsmen must be used where required by law. Permits must be obtained where required by law.
8. Installed Devices may not:
- a. threaten public health or safety; or
 - b. violate any law; or
 - c. substantially interfere with the use and enjoyment of land by causing unreasonable discomfort or annoyance to any adjoining property owner of ordinary sensibilities.
9. All Devices must be maintained in good repair. Unused or inoperable Devices must be removed if they can be seen from any street or common area.

The guidelines are effective upon recordation in the Public Records of _____ County, and supersede any guidelines for solar energy devices which may have previously been in effect. Except as affected by Section 202.010 and/or by these guidelines, all other provisions contained in the Declarations or any other dedicatory instruments of the Association shall remain in full force and effect.

Approved and adopted by the Board on this 30th day of November 2011.
